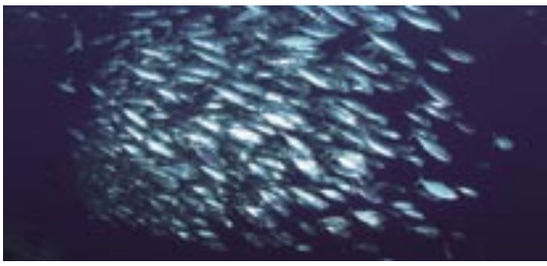
PAPUA NEW GUINEA



PAPUA NEW GUINEA

Tufi Resort is one of the only places in Papua New Guinea to offer all year round diving.

The clear, calm and protected waters of the tropical fjords are perfect for macro and muck diving, such as the popular House Reef, which is only 3 minutes walk from the resort. The nearest open water reef is just a 15 minute boat trip.

This diving paradise has over 30 major dive sites in the nearby tropical waters of the historic Solomon Sea, with many uncharted reefs waiting to be explored. Reef walls come up from a depth of approximately 600 meters (2000ft), hence the good visibility of 30 meters (100ft) and temperatures between 26-29°C (78-84°F).

The stunning marine biodiversity makes this a unique reef system. Coral outcrops are so abundant with varieties of fish, that the saying, "more fish than water", is a common phrase. Pelagic schools of tuna, spanish mackerel, barracuda, white tip and black tip reef sharks, hammerheads and the rare white hammerheads, inhabit these exotic waters. Turtles, manta rays and eagle rays are often seen cruising by.

From the easily accessible PT Boats off the Tufi Resort wharf to the many intact wrecks, Tufi is a stunning place for wreck diving. For the avid divers, there are several WWII wrecks scattered around the Tufi area, such as the world renowned US Bomber nicknamed Black Jack and the Dutch Steamer S'Jacob, which require a special charter for qualified wreck divers.

The dive shop at Tufi Resort is open 7 days a week and caters for divers all year round (including dive equipment hire, service and repairs). Our professional dive staff is available for morning, noon and night dives. Tufi also caters for snorkelers and kayakers and are happy to assist with any inquiries.

The adjacent mainland area also has a rich cultural heritage, set against a stunning backdrop and is ideal for trekking, land-based adventures or just lazing by the resort pool.
